

IP Home Camera

Operation Instruction

1

Product appearance

2

Install the camera

(1) Select a good spot for your camera

Select a good spot for your camera, please install the camera in a position where its view is not blocked and ensure that it is within the coverage of the Wi-Fi network.

3

(2) Install the bracket

Fix the camera to a desired location. You can directly place the camera on a flat surface, or fix the bracket to the wall or ceiling by screws, and then screw the camera to the fixed base.

4

Download and install the App

The camera supports Android and iOS App. For your best experience, please scan the QR code below, and follow the instruction to complete the user registration.

Scan the code to download the APP

vicohome

Set up the camera

Click the "Add Camera Now" in the App and enter the Wi-Fi network name and password that you want the camera to connect. Target the camera at the QR code of the mobile App, with a distance of about 20cm (about 7 inches) until the camera emits a "Di" sound, which represents the scanning is succeeded and the pairing is started.

5

6

Unbinding Device

If this device has been connected to other Wi-Fi or has been bound by other users, you need to unbind the device before rebinding.
Device unbinding method: After the device is powered on and self-checked, press and hold the reset button of the device for 5 seconds, the device will be reset and unbound.

Share the camera

1) Find the camera you want to share on the App homepage or camera setting page. Click the share button and enter the sharing page.

7

2) Click "Invite", and a QR code will be generated for sharing.

3) For the members you need to share, find "Add a Friend's Camera" on the "User" page to enter the scanning page.

4) Scan the QR code on your mobile phone, and you will receive the confirmation notification after success. The sharing will be completed after you agree.
